

HANWELL Solutions Ltd Is part of the Ellab Group of companies.

The business of Hanwell Solutions is to design and develop products that specialise in environmental monitoring.

All personnel of Hanwell are dedicated to a policy, which ensures that its services and products meet the requirements of its customers, for quality and reliability at all times.

To fulfil this policy, the Company has established a Quality Management System, structured to meet the requirements of BS EN ISO9001, BS EN ISO17025.

The Quality Management System is described in the Quality Manual and detailed in a suite of Quality Procedures. All personnel understand the importance of quality and abide by the contents of the documented systems and procedures.

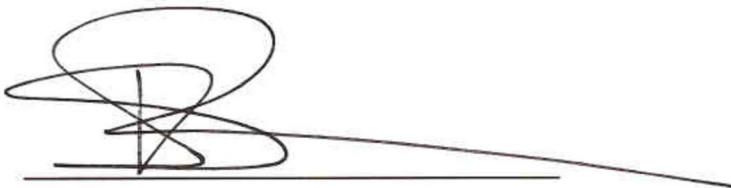

This policy provides a framework for setting quality objectives and targets Hanwell is committed to satisfying applicable requirements and to continually improving the management system.

A formal review of the system takes place at regular management review meetings where quality objectives are reviewed and set.

The Company's commitment to continual improvement and effective operation of the quality system ensures consistent service and product quality, and ongoing capability to meet the expectations of its customers using risk-based techniques.

Senior management ensure that all personnel in the Company are fully aware of the Company's quality policy and objectives, and their individual quality responsibilities, defined in the Quality Manual and Procedures.

This policy shall be made available to relevant interested parties, as appropriate.
