

# RL401 transmitter

## Pro Bug Series

Part of the Hanwell Bug series, the RL401 temperature transmitter with external probe provides fast response temperature data within a slimline unit for discreet or space restricted monitoring.

### Features

- ✓ Wireless transfer
- ✓ Thermistor sensor for accurate temperature measurement
- ✓ High performance technology
- ✓ Low power radio for long distance transmission (1km over open ground)
- ✓ User accessible battery
- ✓ Complies with RoHS, EU and WEEE directives
- ✓ Carries CE Marking

### Typical Applications

- Fridge/Freezer monitoring

Always ask for a long-range signal strength test.

We can prove ours to be unrivalled.

Humidity

Temperature

Radio transmitter

Product code: RL401-434.075 (other frequencies are available)

Instrumentation specification	
Dimension (Excl. ancillaries)	105 x 65 x 19mm
Weight	100 grams (without battery)
Power supply	2 x AAA Alkaline battery
Battery life	Up to 1 year (dependent on conditions of use and instrument settings)
Case material	ABS
IP Rating	IP30
Instrument operating range	-10°C to +55°C
Storage temperature	-40°C to +60°C

Product codes	
Y125	Wall mounting bracket
88715	AAA Alkaline battery
Probe options	Please refer to the Hanwell Pro Sensor datasheet

Radio transmitter functions	
Frequency options	A range of frequencies are available between 433-458MHz. Country specific regulations apply.
Radio power	10mW
Radio range	1km over open ground
Software required	W900 – Standard EMS Software Package W906 – Validated EMS Software Package *See EMS datasheet for further options
Hardware required	CR2 / CR3 – Controller SR2 – Smart Receiver REP – Repeater

Manufactured by Hanwell | Ellab RoHS

Version 3 - EC190194
