

EMS OPC-UA W905

Version 2.0.2 08/10/2021

Bug Fix Version

Bug Fixes

Bug 1 Fix – Alarm ActiveState not being reset when alarm acknowledged.

Bug 2 Fix – Legacy value source time was not updated if value had not changed from last reading.

Bug 3 Fix – Legacy time string incorrectly notes time as GMT.

Installation

EMS OPC-UA now defaults to have both LastValue types active on install.

Version 2.0.1 19/02/2021

Bug Fix Version

Bug Fixes

Bug Fix – Set LastValue Source time stamp to reading time.

Bug Fix – When reading historic data, the end date was not properly detected, and all data from start to end on available data was returned.

Version 2.0.0 25/08/2020

History Version

New Features

Add Historic Data function.

Add Sensor and Channel Alarms function.

Bug Fixes

Bug Fix – Service could lockup, rather than shutdown, when no licence present.

Bug fix – Service could crash if a sensor removed from EMS.

Bug Fix – Channel data and parameters not shown for sensor added without channel readings present in EMS.

Version 1.0.2 27/01/2020
